

PLANNED CONSTRUCTION STATEMENT

RE 611A (Rev. 10/97)

Read instructions on reverse  
side before completing.

Size or Quantity	Description and Location <i>(include type of construction, materials, electrical and mechanical features, as well as common area lot number/letter)</i>	Cost Estimate	Percent Complete	Estimated Completion Date

## INSTRUCTIONS

- **The Planned Construction Statement is to be attached and made part of RE 611 (Bond - Completion of Common Facilities) or any other form of acceptable financial guaranty.** (If other than a bond, submit proposed instrument to DRE for approval.)
- List and describe, in sufficient detail for verification by Construction Cost Estimator, the construction features to be bonded for completion. If the subdivision has multiple common area lots, identify the lots upon which the facilities will be constructed. If phased, also identify the phase number. Use a separate RE 611A for each phase.
- Attach a copy of the overall Project Plot Plan (reduce if necessary), no larger than 11" x 16".
- If completion dates for construction are more than one year in the future, add cost increase factor based on your best estimate to reflect inflationary factors.
- If the common facilities are partially completed and only a portion of the construction will require a financial guaranty, submit evidence to verify completion (i.e., a certification from a licensed appraiser or contractor, a copy of the construction loan disbursement account, etc.). In addition, complete the attached Subdivider Statement (RE 611C) and submit with RE 611A. (Submittal of RE 611C not necessary if submitting completed RE 621C.)

**Sample: PLANNED CONSTRUCTION STATEMENT**

<b>Size or Quantity</b>	<b>Description and Location</b> <i>(include type of construction, materials, electrical and mechanical features, as well as common area lot number/letter)</i>	<b>Cost Estimate</b>	<b>Percent * Complete</b>	<b>Estimated Completion Date</b>
20' x 40'	Pool, Masonry-Gunite, plastered, with associated plumbing, 1-180,000 B.T.U. Heater, filter-type, 1-1/2 h.p., circulating pump, automatic chlorinator.	\$ 12,500	80%	June 1992
65,450 S.F.	Sodded blue grass, etc.	\$ 50,000	70%	June 1992
45,000 S.F.	Ground cover — describe type.	\$ 20,000	0%	June 1992
